

NEW

LiteLock™
system

(patent pending)

The kind of Scooter you want to drive

The new *Invacare Colibri* is a stylish and colourful boot scooter, designed for those who enjoy their independence. Its flexibility means the scooter fits around your lifestyle whilst remaining effortless to use. The *Invacare Colibri* is all about choices. So depending on where you go, how far you travel and what your favourite colour is, **Colibri** has something for you.

Thanks to the unique *Invacare LiteLock™* system the scooter can easily be taken apart without the need for tools and fits neatly into any car boot.

You can choose from a range of modern colour panels to match your style.

Yes, you can.®

Features and Options

LiteLock system - easy to take apart and reassemble

The ingenious and unique *Invacare LiteLock™* system automatically releases once the battery box has been removed. It takes less than a minute to take the scooter apart – without tools. Its front section can be simply lifted and placed in the boot of a car, along with the other sections. It's just as easy to reassemble the scooter when you need it again.

Effortless dismantling

Don't think - do it! Less than a minute is all that's needed to disassemble the **Colibri** for transportation.

Option of a bigger wheel set and battery

Perfect for travelling longer distances, on bumpier terrain, such as cobbled streets. Choose where to charge your battery: directly on the **Colibri** or detached from it.

Increased comfort

The soft, padded seat provides comfort during driving. For increased comfort there is also the optional 'easy fit' seat suspension kit.
