Subtotal Ride Corbacs _____

The Ride Corbac works best when used with the Ride Forward™ or Ride Custom Cushion

▲ The Ride Forward™ Cushion

▲ The Ride Custom Cushion*

*Cut away view of spacer mesh integrated cushion cover.

The Ride Forward cushion is most appropriate for people with mild to moderate risk for skin breakdown.

For people at higher risk for skin breakdown, and/or more challenging postural control needs, the Ride Custom Cushion is the ultimate in postural support and skin care. It is specifically contoured to support a person's unique size, shape, posture and functional requirements.

Return Policy

Ride Corbac back support systems may be returned if they are in their original, sealed, Ride plastic bag. All returns are subject to a 10% restocking fee.
