Liability/ guarantee for foreign products

Do not use any foreign products as spare parts or accessories for MEYRA GmbH -Wheelchairs. Foreign products may affect the operational reliability of the wheelchair, even if the foreign products have not been tested by TÜV or another official authority (General Type Approval). The scope of testing may not always be comprehensive enough.

MEYRA GmbH does not accept any liability or guarantee for foreign products used as spare parts or accessories as well as for damages and accidents caused by exchange or installation of such parts.

Safety instructions for the use of spare parts

- When exchanging parts only use components corresponding to the wheelchair model and Code number.
- Please check after receipt if the spare part received is the same you ordered!
- Only authorized dealers or specialized workshops are allowed to carry out repairs on the wheelchair.
- Please take a test drive after repair of the wheelchair. Pay attention to unusual noises and check:
 - Braking ability
 - Steering ability
 - the straight running.

Abbreviations used

In the bills of material you will find following abbreviations:

AT means exchange components

The parts (articles or standard parts) marked with a letter can be reused after inspection!

Special features

Position numbers marked with a letter refer to parts not represented (e.g. for the opposite side).

Order specimen

To establish your order examples please proceed as follows.

1. **Type/Model**
Please take the type number from the instruction manual, the delivery note or the type plate.
2. **Manufacturing year and vehicle ID no.**
Read off the year of construction and the vehicle identification number from the type plate, e.g.:
Year of construction: 97/12
Vehicle ID No. (Fz-I-Nr.): 5678901
3. **Component unit**
Allocate the defective part to an assembly group (see assembly group outline).
4. **Code-No.:**
Compare the code numbers of delivery note with the Code list of the corresponding assembly group. Code-No.: 626 backrest height 30cm
5. **Look up representation of the assembly group chosen with corresponding Code No.**
The page where you can find the required representation and bills of material is indicated in the table of contents after the code number.
6. **Article-No:**
A position number is indicated on the spare part that is to be ordered enabling you to read off the corresponding article number from the bill of material.
7. **Determine the quantity**
Determine number of component units to be replaced.
Remark:
The number of pieces indicated in the bills of material correspond to the number of component units used in the assembly group (left and right wheelchair side).
8. **Determine the description**
Read off the corresponding designation from the bill of materials.
9. **Determine the colour**
Please take the colour code from the delivery note.
10. **Spare parts order:**
For a correct order please indicate all data.

Watch for the correct specifications on your order; Only then we can guarantee that you will receive the correct spare part.

Attention!

Subsequent changes to the wheelchair as well as arrangements with customers relating to the assembly group to be repaired have to be stated in your order.

Important information!

If any modifications have been made to the wheelchair, the specialized dealer is required to enclose the appropriate code no. as well as the date of the modifications, along with the operating instructions for the wheelchair. This ensures that no incorrect details will be given for future orders of spare parts. **Original- MEYRA GmbH -spare parts!**
